Contents

Volume 18, Number 1, February 1983

A. H. El Tinay, S. B. El Hardalou and A. M. Nour:
Comparative study of three legume starches 1

B. Ericsson, P.-O. Hegg and K. Mårtensson:
Protection of ovalbumin against irreversible heat denaturation by a cationic amphiphile at high concentration 11

Chay B. Pham and R. R. del Rosario:
The preparation of protein hydrolysate from defatted coconut and soybean meals. I. Effect of process variables on the amino nitrogen released and flavour development 21

R. Barbieri and E. M. Casiraghi:
Production of a good grade flour from defatted corn germ meal 35

C. Peri, R. Barbieri and E. M. Casiraghi:
Physical, chemical and nutritional quality of extruded corn germ flour and milk protein blends 43

O. Paredes-López and R. Mora-Escobedo:
Influence of storage on the quality of maize meal for tortilla making 53

Christina Skjöldebrand, A. Ånäs, R. Öste and P. Sjödin:
Prediction of thiamine content in convective heated meat products 61

Morag Hamilton and R. Bennett:
An investigation into consumer preferences for nine fresh white fish species and the sensory attributes which determine acceptability 75

A. J. Borderias, M. Lamua and M. Tejada:
Texture analysis of fish fillets and minced fish by both sensory and instrumental methods 85

Lea Hyvönen and Maria Slotte:
Alternative sweetening of yoghurt 97

G. Mazza:
Dehydration of carrots. Effects of pre-drying treatments on moisture transport and product quality 113

A. Di Nola and E. Brosio:
Bound and free water determination by pulsed nuclear magnetic resonance. A method for data analysis in the presence of exchange 125

Technical note
L. N. Srikar and R. Chandrau:
Determination of organic nitrogen by Kjeldahl digestion using hydrogen peroxide 129

Book reviews 135

Erratum 142

Volume 18, Number 2, April 1983

D. O. Biltcliffe, J. P. Shrouder, E. H. Steiner and R. Wood:
An assessment of acceptance sampling plans as applied to foodstuffs 143

S. Rajarathnam, Zakia Bano and M. V. Patwardhan:
Post-harvest physiology and storage of the white oyster mushroom *Pleurotus flabellus* 153

Chay B. Pham and R. R. del Rosario:
The preparation of protein hydrolysate from defatted coconut and soybean meals. II. Quality and sensory evaluation of products 163

D. Naveh, I. J. Kopelman and S. Mizrahi:
Electroconductive thawing by liquid contact 171

S. S. Arya, V. Natesan and P. K. Vijayaraghavan:
Stability of carotenoids in freeze dried papaya *(Carica papaya)* 177

W. N. Sawaya, H. A. Khatchadourian, W. M. Safi and H. M. Al-Muhammad:
Chemical characterization of prickly pear pulp, *Opuntia ficus-indica,* and the manufacturing of prickly pear jam 183

C. R. Holland, M. S. Otterburn and P. McComiskey:
Froth flotation as a means of protein extraction from mussels 195

L. A. D. Duru:
Isolation and characterization of branched chain fatty acids (other than those derived from phytol) in cod liver oil 207

E. Brosio, G. Altobelli, Shi Yun Yu and A. di Nola:
A pulsed low resolution NMR study of water binding to powdered milk 219

R. L. McBride and K. C. Richardson:
Sensory assessment of the shelf life of carbonated soft drinks 227

E. G. Davis, D. Barnett and P. M. Moy:
Determination of molecular and free sulphur dioxide in foods by headspace gas chromatography 233

S. New and J. Marriott:
Factors affecting the development of 'finger drop' in bananas after ripening 241

Technical note
S. Hernandez-Briz and R. Clotet Ballus:
A test for pro-oxidants in printed packaging films 251

Book reviews 255

Volume 18, Number 3, June 1983

G. O. Osuji:
The effect of glutathione on the cohesiveness of pounded cassava, cocoyam, gari and yam 265

A. O. Emokpae:
Preliminary studies on the chemical and weight composition of some commercially important species of fish and shrimp caught in the Nigerian inshore water 271

C. H. Mannheim, Hadassa Adan and Nehama Passy:
External corrosion of cans during thermal treatment 285

R. G. Bell and C. O. Gill:
Amylolytic activity in cooked luncheon meat 295

N. Nath and S. Ranganna:
Determination of a thermal process schedule for guava (*Psidium guajava* Linn.) 301

N. Nath, Siddalingu and S. Ranganna:
Heat transfer characteristics and process requirements of hot-filled guava pulp 317

J. M. Aguilera, M. F. Gerngross and E. W. Lusas:
Aqueous processing of lupin seed 327

Janet S. MacFall, G. A. Bean and K. L. Deahl:
Occurrence of *Aspergillus* spp. and aflatoxins in commercial mushroom compost 335

R. J. Aguerre, C. Suarez and P. E. Viollaz:
Moisture desorption isotherms of rough rice 345

I. M. Jawad, S. P. Kochhar and B. J. F. Hudson:
Quality characteristics of physically refined soyabean oil: effects of pretreatment and processing time and temperature 353

N. H. Poulter and J. E. Treviño:
Acceptability of a canned pâté product based on some Gulf of California shrimp by-catch fish 361

H.-J. S. Nielsen:
Composition of bacterial flora in sliced vacuum packed Bologna-type sausage as influenced by nitrite 371

A. D. Matthews:
Muscle colour deterioration in iced and frozen stored bonito, yellowfin and skipjack tuna caught in Seychelles waters 387

Book reviews 393

Volume 18, Number 4, August 1983

G. A. Barry, B. I. Brown and L. R. Barker:
The use of low resolution nuclear magnetic resonance for determining avocado maturity by oil content 401

A. C. Cleland and M. F. Gesterkamp:
The effect of irregular cooling phenomena on the lethality of thermal processes 411

J. D. Selman, P. Rice and R. K. Abdul-Rezzak:
A study of the apparent diffusion coefficients for solute losses from carrot tissue during blanching in water 427

Z. G. Weinberg:
A comparison of the binding properties of fish flesh 441

B. G. Osborne and T. Fearn:
Collaborative evaluation of universal calibrations for the measurement of protein and moisture in flour by near infrared reflectance 453

G. G. Kashani and L. R. G. Valadon:
Effect of salting and roasting on the lipids of Iranian pistachio kernals 461

K. S. Premavalli and S. S. Arya:
Physical and chemical changes during roasting of semolina (suji) 469

P. D. Jolley, R. L. T. Lopes, E. Dransfield and G. Perry:
Rabbit meat for manufacturing: the effect of different post-slaughter cooling treatments 481

M. W. Griffiths:
Synergistic effects of various lipases and phospholipase C on milk fat 495

D. Hutchinson and L. Otten:
Thin-layer air drying of soybeans and white beans 507

J. A. Pino and R. Tápanes:
Evaluation of a process for obtaining partially concentrated distilled lime oil 523

Technical note
J. Peters, G. George and A. Toner:
Determination of ammonium ion concentration in collagenous films by a modified Kjeldahl method 529

Book reviews 533

Volume 18, Number 5, October 1983

S. Angeletti and M. Moresi:
Modelling of multiple-effect falling-film evaporators 539
A. A. Williams, G. M. Arnold and M. Warrington:
Consumer reaction to processed Suntan apples 565
H.-J. S. Nielsen:
Influence of nitrite addition and gas permeability of packaging film on the microflora in a sliced vacuum-packed whole meat product under refrigerated storage 573
G. Cardoso and T. P. Labuza:
Prediction of moisture gain and loss for packaged pasta subjected to a sine wave temperature/humidity environment 587
A. C. Murray, L. E. Jeremiah and A. H. Martin:
Muscle fibre orientation and its effect on measurements of tenderness of bovine longissimus dorsi muscle 607
E. C. Chuah, A. Z. Idrus, C. L. Lim and C. C. Seow:
Development of an improved soya protein-lipid film 619
P. G. Pifferi and A. Vaccari:
The anthocyanins of sunflower. II. A study of the extraction process 629
A. H. Kirton, R. J. Winger, J. L. Dobbie and D. M. Duganzich:
Palatability of meat from electrically stimulated carcasses of yearling and older entire-male and female sheep 639
B. G. Osborne, T. Fearn and P. G. Randall:
Measurement of fat and sucrose in dry cake mixes by near infrared reflectance spectroscopy 651

Book reviews 657

Volume 18, Number 6, December 1983

A. Levi, S. Gagel and B. Juven:
Intermediate moisture tropical fruit products for developing countries. I. Technical data on papaya 667

A. W. O. Lima and J. Cal-Vidal:
Hygroscopic behaviour of freeze dried bananas 687

A. A. Williams, G. M. Arnold and M. Warrington:
The evaluation of the apple cultivars Bramley's Seedling, Suntan and East Malling A 3022 for the production of apple slices 697

A. A. Hofi, M. N. I. Magdoub, L. B. Abd'El-Hamid and Sh. G. Osman:
A new type of semi-hard cheese from recombined milk 711

G. Boison, M. V. Taranto and M. Cheryan:
Extrusion of defatted soy flour-hydrocolloid mixtures: Effect of operating parameters on selected textural and physical properties 719

F. J. Colmenero and A. J. Borderias:
A study on the effects of frozen storage on certain functional properties of meat and fish protein 731

C. A. Curran and R. G. Poulter:
Isohalic sorption isotherms. III. Application to a dried salted tropical fish *(Xenomugil thoburni)* 739

N. K. Howell and R. A. Lawrie:
Functional aspects of blood plasma proteins. I. Separation and characterization 747

P. W. Board and H. J. Woods:
Compositional variations and sensory acceptability of apple juice drink 763

A. P. Gandhi, V. K. Mishra and N. Ali:
Organoleptic assessment of full fat soy flour in various indigenous products 771

R. A. Edwards, R. H. Dainty and C. M. Hibbard:
The relationship of bacterial numbers and types to diamine concentration in fresh and aerobically stored beef, pork and lamb 777

A. D. Pethybridge, R. W. Ison and W. F. Harrigan:
Dissociation constant of sorbic acid in water and water-glycerol mixtures at 25°C from conductance measurements 789

Technical notes

R. M. Basel:
The improvement of green colour of green beans by acidified bulk storage 797

R. P. Murphy:
The estimation of viable count in the control of quality in food manufacture 801

Book reviews 805
